

BIG SKY BRIGHT FUTURE

ECONOMIC SUMMIT

GOVERNOR GREG GIANFORTE

MONTANA CHAMBER OF COMMERCE

OCTOBER 16, 2025
BOZEMAN, MT

CO-HOST

Friends,

Thank you for joining us for the second “Big Sky, Big Future Summit” as we discuss Montana’s economic future, with a focus on affordable and reliable energy for our growing state. I’m grateful to Todd O’Hair and the Montana Chamber of Commerce for working with my staff to make this event possible.

Since taking office in 2021, we’ve made great progress to expand economic opportunities for Montanans and protect our way of life. With record job creation, historic wage growth, and low unemployment, it’s clear we are delivering results. We delivered the largest income tax cut in state history, cutting taxes for Montanans at every income level, not just once, but twice. As a result, more Montanans are working, and the American dream is within greater reach for Montana families.

As we look to the future and work to build on our success, Montana must have affordable and reliable energy. Everyone knows the reality: we are facing an energy crisis in the United States. According to a recent report, the demand for electricity in western states is projected to grow by 20 percent in the next decade. We must meet this challenge head-on and secure affordable, reliable energy to power our homes, schools, and businesses, not just today, but into the future. This Summit can and will play a role in informing policymakers, stakeholders, and community leaders about the path forward for Montana’s energy future.

The State of Montana stands ready to work with you to ensure our economic future is bright. We welcome conversations with you about how we can continue making Montana the best place to do business. Please engage with us so that we can bring the American dream into greater reach for Montanans across our state.

Serving as Montana’s governor is the honor of my life. Please do not hesitate to reach out to me should you need anything. My door is always open.

Thanks again for joining us today.

Greg Gianforte
Governor

WELCOME

In 2016, the Montana Chamber unveiled its first ever strategic plan, known as Envision 2026. The plan was driven by the Montana Chamber of Commerce board of directors with the intention to leverage the strength of the most respected business advocacy organization to grow Montana's economy—to build an economy we as Montanan's deserve.

Following surveys, focus groups and one-on-one meetings with business leaders throughout the state, the Montana Chamber settled on four main pillars to grow Montana's economy.

1. Business Climate—improving Montana's tax structure, regulatory environment, judicial climate and legal environment
2. Infrastructure—promoting investments in the foundational structures that build economies such as roads, bridges, water treatment systems and access to high-speed internet and broadband
3. Workforce Development—preparing Montana's youth for a productive life after graduating high school, whether that path took them to higher education or straight into the workforce
4. Entrepreneurship—ensuring Montana ranks as one of the top entrepreneurial states in the country, creating wealth and opportunities in rural and urban Montana.

A lot has changed since 2016. And some things remain the same.

Workforce remains a significant challenge to Montana's economic growth. It was a top issue in 2016 and an even bigger issue today.

Energy and housing are two issues that did not arise in our meetings with business leaders in 2016. Today, both are a top concern as we look at Montana's opportunities and threats and are likely to become part of our next ten-year strategic plan.

Our strategic plan is important because it focuses the Montana Chamber on specific issues—issues that matter the most to forward thinking business leaders. It keeps us focused regardless of which party resides in the White House or the Governor's residence.

As we map out our priorities for the next 10 years, it's important that we listen to business leaders and what the opportunities and threats they see to our economy.

If you haven't taken our survey, we encourage you to scan our QR code and register your views. It's a short 10-minute survey and responses will help focus our priorities for the next decade.

On a final note, thank you to Governor Greg Gianforte and his entire team for their dedication to Montana and tireless efforts to grow our economy. We have a tremendous relationship with the entire Gianforte Administration and today's economic summit would not be possible without the full support and participation of the Governor and his staff.

The Montana Chamber has worked closely with the Gianforte Administration over the last six months to pull together today's agenda. It has been an honor to partner with them in this effort and exhilarating to know that Montana's top elected official recognizes and understands the importance of energy for our economic future.

I trust today's event will be informative and provide opportunities for you to build your professional networks. On behalf of the entire staff, thank you for making time to participate and for your support of the state's largest and most respected business advocate—the Montana Chamber of Commerce.

Todd O'Hair
Montana Chamber of Commerce President & CEO

GOVERNOR
GREG GIANFORTE

MONTANA
CHAMBER OF
COMMERCE

AGENDA

BIG SKY, BRIGHT FUTURE SUMMIT | BOZEMAN

7:30 am - 8:15 am — CHECK IN | CONTINENTAL BREAKFAST | NETWORKING

8:15 am - 8:20 am — WELCOME

Todd O'Hair - President & CEO, Montana Chamber of Commerce

8:25 am - 8:30 am — SETTING THE STAGE
Ed Rihn - President & CEO, BHE Montana

8:30 am - 8:45 am — KEYNOTE
National Energy Dominance Council

8:45 am - 9:30 am — DOING BUSINESS UNDER THE BIG SKY
Chris Bakker - CEO, Avanti Helium
Gary Evans - CEO, U.S. Antimony Corp.
Eryn Smith - President & CEO, Eshylon Scientific
Moderator: **Marta Bertoglio** - Director, Montana Department of Commerce

9:30 am - 10:00 am — NETWORKING BREAK

10:00 am - 10:15 am — KEYNOTE
Jesse Ramos - State Director, Americans for Prosperity MT

10:15 am - 11:15 am — DEMAND, SUPPLY & MARKETS: WHERE WE ARE TODAY, WHERE WE WILL BE IN A DECADE
John Chesser - CEO, Quantica Infrastructure
John Hines - Vice President, NorthWestern Energy
Mark Lambrecht - CEO, Montana Electric Cooperatives' Association
Ed Rihn - President & CEO, BHE Montana
Moderator: **Sonja Nowakowski** - Director, Montana Deptartment of Environmental Quality

11:15 am - 12:00 pm — GOVERNORS UNLEASHING AMERICAN ENERGY
Governor Greg Gianforte, Montana
Governor Jenniffer González-Colón, Puerto Rico
Governor Mark Gordon, Wyoming
Governor Jim Pillen, Nebraska

12:00 pm - 12:45 pm — LUNCH | NETWORKING

AGENDA

BIG SKY, BRIGHT FUTURE SUMMIT | BOZEMAN

12:45 pm - 1:00 pm

KEYNOTE

Allen Cadreau - CEO, Indian Energy

1:00 pm - 1:30 pm

FIRESIDE CHAT: NEXUS BETWEEN ENERGY & AI

Max Yzaguirre - President, Yzaguirre LLC
Todd O'Hair - President & CEO, Montana Chamber of Commerce

1:30pm - 1:45 pm

A MESSAGE FROM SEN. DAINES

Dear Friends,

Welcome to the second annual Big Sky, Bright Future Economic Summit hosted by Governor Gianforte and our very own Montana Chamber of Commerce. The theme of this year's summit is fittingly centered on energy, as we have made tremendous strides since President Trump took office in January to strengthen our nation's energy security and position the United States as a global leader in domestic energy development.

The Treasure State is uniquely positioned with rich natural resources that allow for an all-of-the-above energy approach that embraces innovation, while always defending affordable and reliable baseload power. Montana's energy producers play a critical role in fueling our economy, strengthening our nation's energy independence, and providing good-paying jobs that support families and communities. It's no secret, homegrown energy is more than just a utility: it is an economic engine that Montanans know how to leverage for jobs, growth, and opportunity.

I am proud to partner with you all back in Washington to make sure Montana's energy industry has the tools it needs to grow and compete. In July, President Trump signed into law the One Big Beautiful Bill that spurs Montana energy development and strengthens our national energy security. I was proud to see my Supporting Made in America Energy Act included, which requires four annual onshore oil and gas lease sales, as well as my provisions to permanently cut small business taxes, and allow for full expensing of new investments and deductions for intangible drillings costs.

Thank you for your efforts to safeguard made-in-Montana energy - the future remains bright!

Sincerely,

Steve Daines
United State Senator

From Butte to Billings, Havre to Hebgen, we work 24/7/365 to build stronger communities through the production, generation and delivery of electricity and natural gas. We're proud to make sure your lights and heat come on, but that's not everything we do. We also add critical infrastructure that allows our communities to grow. We partner with people in our communities to increase the reliability of our service. We help customers save money with energy efficiency programs, products and rebates. And we remain committed to decreasing emissions until we reach net zero.

We're passionate about the communities we serve, and meeting the needs of our customers today while working to deliver everyone a **bright future.**

NorthWestern® Energy

Delivering a Bright Future

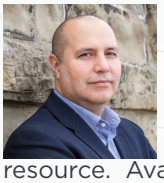

SPEAKERS

ED RIHN | BHE MONTANA

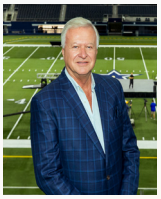

Edward W. Rihn, has over 25 years of experience, including business development, corporate development, government relations, indigenous relations, customer service, consultation, project management and construction management. His career spans industrial gases and chemicals, hydrogen, pipelines, renewable energy and electric transmission.

Rihn holds a bachelor of science in civil engineering from Clarkson University and an executive master's in technology management from the University of Pennsylvania. He currently serves as chair of the board of directors for the YMCA of Calgary; as a member of the Canadian American Business Council's board of directors and on the board of directors of AltaLink.

CHRIS BAKKER | AVANTI HELIUM

Chris Bakker is President, CEO and co-founder of Avanti Helium, a pure-play helium exploration and production company at the forefront of securing a reliable supply of this critical resource. Avanti, with its primary asset in Liberty and Toole Counties (MT), expects to see production in mid-2026. Prior to entering helium exploration, he spent over two decades in oil and gas, most recently working as a commercial negotiator with Encana/ Ovintiv, covering major facilities and pipelines agreements in the Montney gas play. His expertise includes all facets of Natural Gas Exploration, such as land acquisition, exploration, drilling, well production, facility integration, and construction. Chris's educational background, which includes a Bachelor's and Master's in Economics and an MBA later in his career, has allowed him to navigate the global trends impacting his industry as well as the technical and economic complexities of this emerging industry.

GARY EVANS | U.S. ANTIMONY CORP

Gary C. Evans is a serial entrepreneur and transformational leader. He presently serves as Chairman of the Board and Chief Executive Officer of U.S. Antimony Corporation (UAMY), a publicly held critical mineral mining company that currently is the only domestic processor of antimony.

Mr. Evans is also the Chairman and Chief Executive Officer of Evergreen Sustainable Enterprises, Inc. a "green" publicly held bitcoin mining company that owns a hydroelectric dam located in Costa Rica that serves as the power source for bitcoin mining.

Mr. Evans previously led Magnum Hunter Resources Corporation for seven years. He was also founder and CEO of Eureka Hunter Holdings, LLC, and previously founded and served as the Chairman and Chief Executive Officer of Magnum Hunter Resources Inc. for twenty years. Mr. Evans formed Wind Hunter Energy, LLC, a renewable energy company, and served as Chairman and Chief Executive Officer until May 2016.

Throughout his career, Mr. Evans has raised various forms of capital on Wall Street that has exceeded $8 billion. Mr. Evans has previously served for 24 years, last serving as an independent director of Novavax Inc.

Mr. Evans was recognized by Ernst and Young as the Southwest Area 2004 Entrepreneur of the Year for the Energy Sector and was subsequently inducted into the World Hall of Fame for Ernst & Young Entrepreneurs. Mr. Evans was also recognized as the Energy Industry Leader of the year in 2013 and chosen by Finance Monthly in 2013 as one of the most respected CEO's. Mr. Evans was chosen as the Best CEO in the "Large Company" category by Texas Top Producers in 2013. He additionally won the Deal Maker of the Year Award in 2013 by Finance Monthly. Mr. Evans serves on the Board of the Maguire Energy Institute at Southern Methodist University ("SMU") and has historically lectured at SMU and spoken on the current affairs of the energy industry.

ERYN SMITH | ESHYLON SCIENTIFIC

President and CEO Eryn's career in technology started early, working part time for a plasma processing company, Technics, while still in high school. He went on to study electrical engineering, micro-electronics, and physics. After graduation he was recruited to join Trans-Pacific Technology, as the lead process engineer working with the five original founders. Trans-Pacific acquired Metron Semiconductors in 1994 and the company grew from 6 employees to over 2000 and went public in 1998 at close to $1B in annual revenue. Eryn left Metron shortly after the public offering as the Chief Technologist. He then founded Beam Services, Inc. following a successful 17-year tenure it was sold to Hitachi. Eshylon Scientific was then founded 2018, where the focus is on electrostatic bonding in primarily semiconductor applications Eryn holds undergraduate and advanced degrees in Electronics and Microelectronics, as well a Ph.D. in microelectronics from St. Matthews University. He has been awarded dozens of domestic and international patents and has been widely published. Eryn is a member of IEEE, SPIE, and a former member of the YEO and EO global management organizations. Eryn has been active with the ministry of health and education of the Cayman Islands, in conjunction with Oxford and St. Matthews to implement X-ray and SEM education on the Island.

MARTA BERTOGLIO | MONTANA DEPARTMENT OF COMMERCE

Marta is a Montana native who graduated from the Air Force Academy and subsequently served as a Space Operations officer in the Air Force until returning to Montana in 2007. She got her real estate license in 2014 and opened her own business, a boutique real estate firm, with a partner. She served on a school board for 9 years, and in the legislature for 3 terms until her appointment to Commerce in June 2025. She is married with 2 daughters.

SPEAKERS

JESSE RAMOS | AMERICANS FOR PROSPERITY MONTANA

Jesse Ramos serves as State Director for Americans for Prosperity–Montana, where he leads efforts to advance policies that expand economic freedom and opportunity across the state. A native of Libby, Montana, Jesse has seen firsthand both the promise of Montana's natural resource economy and the costs of lost opportunity when industries are regulated out of existence. Previously, Jesse served on the Missoula City Council as its youngest member, where he championed fiscal responsibility and government accountability. Today, he continues to work at the intersection of policy, energy, and entrepreneurship—building coalitions with business leaders, grassroots advocates, and policymakers to unleash innovation, restore Montana's middle class, and ensure the state remains a leader in American energy development.

JOHN CHESSER | QUANTICA INFRASTRUCTURE

John Chesser, Chief Executive Officer of Quantica Infrastructure, has built his career leading major energy and infrastructure projects that combine reliable power with innovative technology solutions. Most recently, he served as CFO of Talen Energy and Cumulus Growth, where he oversaw the buildout of a 475MW data center campus (later acquired by AWS) and a 150MW bitcoin mining facility. He previously held senior finance roles at TerraForm Power, a 3GW renewables platform acquired by Brookfield, and at General Motors during its financial restructuring and IPO. John holds degrees in Accounting and Taxation from the University of Alabama and an MBA from Harvard Business School.

JOHN HINES | NORTHWESTERN ENERGY

John Hines has served as Vice President of gas and electricity supply since 2011. NorthWestern provides electricity and natural gas service to over 750,000 customers in Montana, South Dakota, and Nebraska.

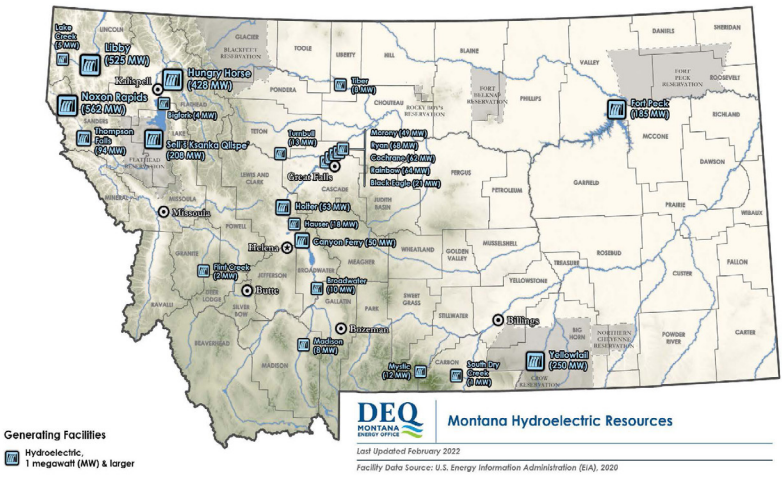

In this position, Mr. Hines is responsible for natural gas and electricity supply planning, acquisition, an electric trading floor, generation development and operation, and regulatory supply filings. In 2012, Mr. Hines began overseeing the corporate environmental and lands functions and in 2019 he also began overseeing the Montana Government Affairs function.

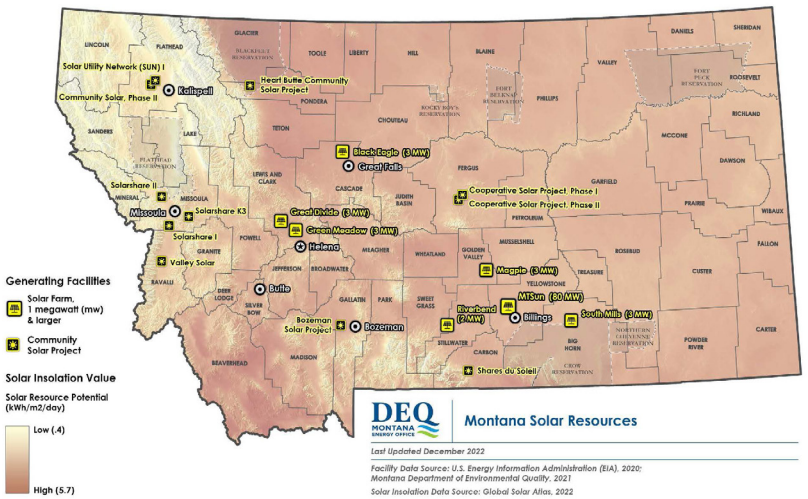

Mr. Hines joined NorthWestern Energy in 2005 as Director of Energy Supply Planning and was responsible for leading the company's energy supply planning and long-term procurement activities. In 2008, he served as Chief Energy Supply Officer with direct oversight of natural gas and electricity service. Prior to joining NorthWestern, Hines was appointed to serve as one of Montana's two representatives to the Northwest Power and Conservation Council from 2002 through 2004.

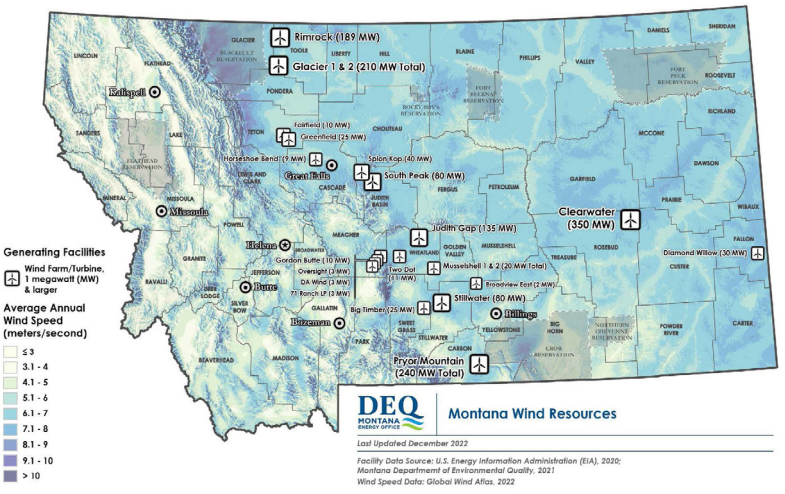

Hines is a native of Bozeman, Montana, and received his B.A and M.A. in Economics from the University of Montana. He and his wife Siobhan have two children and live in Helena.

MONTANA CHAMBER OF COMMERCE

The maps featured here and throughout the program are from the MT Department of Environmental Quality's 2023 "Understanding Energy in Montana" report prepared by DEQ and MT Legislative Services Division. Find these maps and the full report at deq.mt.gov/energy/resources.

MARK LAMBRECHT | MT ELECTRIC COOPERATIVES' ASSOCIATION

Mark Lambrecht is Chief Executive Officer of the Montana Electric Cooperatives' Association. MECA provides safety, education, communications and government relations services to the 25 member-owned electric cooperatives providing safe, affordable and reliable electricity to more than 400,000 Montanans.

Lambrecht was most recently MECA's Director of Government Relations. He has 35 years of experience in energy and natural resource policy, government and public affairs and organizational management. His previous positions include Assistant Director of National Conservation Lands and Community Partnerships for the federal Bureau of Land Management, Director of Government Affairs for the Rocky Mountain Elk Foundation, Executive Director of the Treasure State Resource Industry Association, Regulatory Affairs Manager for PPL Montana and Legislative Assistant to former U.S. Senator Max Baucus.

Mark earned a master's degree in resource conservation from the University of Montana College of Forestry and a bachelor's degree in political science from Gonzaga University.

SONJA NOWAKOWSKI | MONTANA DEPARTMENT OF ENVIRONMENTAL QUALITY

Sonja Nowakowski serves as the Director of the Montana Department of Environmental Quality (DEQ) and is the Chair of Governor Gianforte's Energy Task Force. Under Sonja's leadership, DEQ continues to protect Montana's environment and to work toward a healthy and thriving way of life for all Montanans today and into the future. For the last three years, Sonja served as the Administrator for the Air, Energy, and Mining Division at DEQ. Prior to joining the DEQ team, Sonja worked for the Montana Legislature for 15 years. She served as a nonpartisan research analyst in the Legislative Environmental Policy Office and as the Research Director for the Office of Research and Policy. Sonja's nonpartisan work for the Legislature focused on environment and energy policy. She staffed Energy and Natural Resources standing committees and in the interim assisted both the Environmental Quality Council and the Energy and Telecommunications Interim Committee.

SPEAKERS

GOVERNOR JENNIFFER GONZÁLEZ-COLÓN | GOVERNOR OF PUERTO RICO

Jenniffer González Colón is the current Governor of Puerto Rico. She is the second woman elected to the position. She was also the first woman to represent Puerto Rico in the United States Congress. A tireless advocate for equal rights for Puerto Ricans through statehood, she is a dedicated public servant, art enthusiast, attorney, wife, and mother. Her career in public office began in 2002 when she became the youngest member of the Puerto Rico House of Representatives. She went on to become its Speaker in 2009. As a state legislator, she led initiatives in support of services for children with autism and special needs; measures to promote business, including energy cost reduction and reform of the Closing Law; tax reform; cybersecurity; public safety; and protections for victims and witnesses. She also championed environmental protections and founded the Women's Caucus, through which she spearheaded efforts to combat domestic violence and promote workplace equality. She authored the Veterans' Bill of Rights for the 21st Century, among other legislative achievements.

In 2016, González Colón made history as the first woman elected to represent Puerto Rico in the U.S. Congress. During her tenure, she served on the Committees on Veterans' Affairs; Small Business; Transportation and Infrastructure; Science, Space, and Technology; and Natural Resources. She also chaired or co-chaired several congressional caucuses. Additionally, she was part of the U.S. delegation to the NATO Parliamentary Assembly. Her performance in Congress earned her several recognitions, and in her final term, she was ranked the sixth most effective non-partisan member.

González Colón secured the largest amount of federal funding in Puerto Rico's history, ensuring the continuation of key programs. She was a vocal overseer of Puerto Rico's energy system, and advanced legislation aimed at boosting the economy, supporting working families and small businesses, improving healthcare, enhancing drug control policies, protecting the environment, and achieving significant progress toward statehood.

She holds a Bachelor's degree in Political Science from the University of Puerto Rico at Río Piedras, a Juris Doctor from the Inter American University of Puerto Rico School of Law, and a Master of Laws (LL.M.) with Honors, specializing in Litigation and Alternative Dispute Resolution, also from the Inter American University. She is certified to teach Continuing Legal Education courses.

GOVERNOR MARK GORDON | GOVERNOR OF WYOMING

Mark Gordon was elected Wyoming's 33rd Governor on Nov. 6, 2018. He was sworn into offi ce on January 7, 2019, and re-elected on November 8, 2022, with 74% of the vote. He is consistently ranked among the top four most popular governors in the nation (Morning Consult).

A staunch advocate of quality education for all children and life long learners, he launched Wyoming's successful Reimaging and Innovation the Delivery of Education (RIDE), and Wyoming Innovation Partnership, a collaboration aligning education and workforce development to support innovation, entrepreneurship and research. He is the current Chair of the Education Commission of States. As a conservative, Governor Gordon has worked tirelessly to set Wyoming on a sustainable fiscal path and has spearheaded efforts to diversify Wyoming's economy — from technology and finance to agriculture, energy, research, and tourism. He is committed to making government more transparent, accessible, productive, and efficient. He believes government is best when it is closest to the people and is committed to giving local communities the tools they need to thrive. His efforts to help Wyomingites live their best lives is reflected in his WY WE CARE Initiative — which supports first responders, volunteers, and front line professionals — to provide mental health care in local communities.

The Governor served as Chairman of the Western Governor's Association, and as a Class B Director at the Federal Reserve. He currently serves as Chairman of the Wyoming Stable Token Commission. He was appointed Wyoming State Treasurer October 2012 and re-elected to that post in 2014, serving until January 2019. During his time as treasurer, he was ranked in the top 100 "Most Significant and Impactful Public Investor Executives" (The Sovereign Wealth Fund Institute).

Governor Gordon grew up on the family ranch in Kaycee, Wyoming, where he learned the values of hard work, integrity, and the importance of working together. As Governor, he brings those values to the table, maintaining his commitment to a Wyoming where citizens can pursue their dreams while the state retains its unique character.

A rancher, mountaineer, and entrepreneur, he has experience in natural resource management, building businesses and raising a family. He and his wife Jennie have four grown children and four grandchildren.

GOVERNOR JIM PILLEN | GOVERNOR OF NEBRASKA

Governor Jim Pillen's a farmer, veterinarian, and commonsense Nebraskan honored to serve the people of his home state.

Faith and family are at the root of Gov. Pillen's life, and he's been married to Suzanne for more than 40 years. They have four children: Sarah, Brock, Polly, Izic – and seven grandkids.

A two-time First-Team All-Big Eight defensive back for the legendary Coach Tom Osborne, Gov. Pillen earned an Animal Science degree from the University of Nebraska and a Doctorate of Veterinary Medicine from Kansas State University. Back in Nebraska, he built Pillen Family Farms and later started DNA Genetics – both are now multigenerational family-run businesses.

As the first Governor of the state from agriculture in over 100 years, Gov. Pillen is proud to brag about the 'Good Life' and the great people of Nebraska. The pillars of his mission are supporting our kids, slashing taxes, growing agriculture, and promoting conservative values.

BUILT HERE, FELT HERE.

AMERICAN ENERGY POWERED THE LAST CENTURY.

We can energize the future with clean, dependable, and affordable power that's built right here at home. Congress has a choice: Build America's energy future or risk falling behind.

TELL CONGRESS: PASS PERMITTING REFORM.

ALLEN CADREAU | INDIAN ENERGY

Allen George Cadreau is a visionary energy executive and entrepreneur who serves as the Founder and Chief Executive Officer of Indian Energy, LLC, a Native American–owned microgrid developer and systems integrator focused on energy sovereignty, resiliency, and advanced storage solutions.

With over 35 years in the electrical and energy sectors, Allen brings deep technical acumen, strategic insight, and a passion for sustainable development to his leadership role. Under his direction, Indian Energy has earned recognition for its work with Tribes, Tribal Utility Authorities (TUAs), community choice aggregators, the U.S. Department of Defense, and municipal partnerships across North America.

Allen's commitment to tribal sovereignty is central to his mission. He has championed projects that strengthen Indigenous communities' control over their infrastructure, while also advancing grid resilience and leveled costs of energy. A highlight of his leadership is guiding the Viejas Enterprise Microgrid project to financial close, which made it the first use of the U.S. Department of Energy's Tribal Energy Finance Program for a utility-scale microgrid.

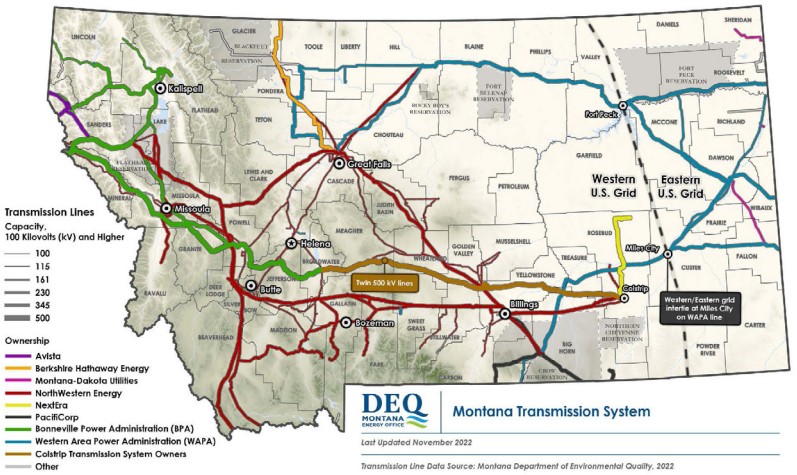

Allen is a staunch proponent of providing resources, services, and funding to combat veterans suffering from Post-Traumatic Stress Disorder (PTSD). Mr. Cadreau has partnered with the Seri Tribe, an Indigenous people of Sonora Mexico, to create a Holistic Healing Center that provides a safe place for our veterans to reconnect and heal.

Allen holds a degree from Ohio Institute of Technology in Electrical Engineering, and he is a member of the Sault Ste. Marie Tribe of Chippewa Indians, bringing both professional and cultural perspective to his work. Driven by a steadfast belief in energy as a vehicle for sovereignty and equity, Allen leads Indian Energy with integrity, innovation, and a long-term vision for sustainable community impact.

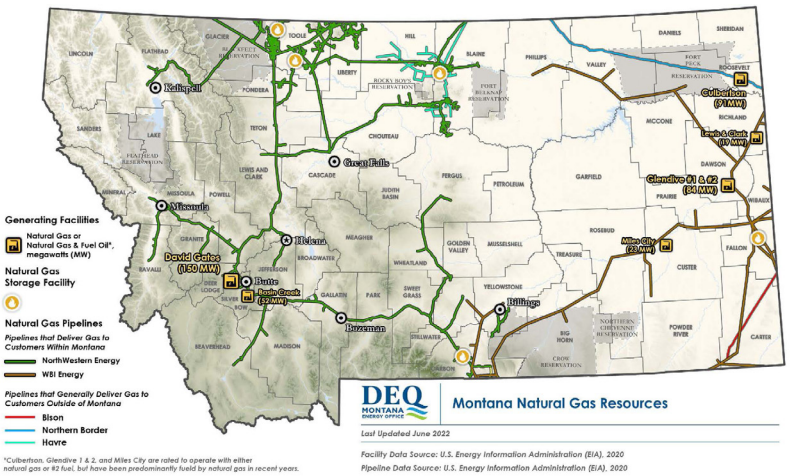

MAX YZAGUIRRE | YZAGUIRRE LLC

Mr. Yzaguirre commenced his career as an attorney at Vinson & Elkins and as a partner at Atlas & Hall, specializing in business law, primarily focused on domestic and international mergers, acquisitions and investments, as well as public and private finance transactions. Max worked at Enron in different capacities including serving as President of its Mexico operations where he led the successful development of a $190 million, 245-megawatt cogeneration plant that provided electricity and steam to three independent industrial groups. Mr. Yzaguirre's professional career also included stints at Hunt Consolidated, Isolux Ingenieria USA, The Yzaguirre Group, and Forbes Bros. Holdings. His 35+ years of leadership experience in domestic and international business, government and law, and expertise in a wide variety of industries and sectors, including electricity, oil and gas, banking, real estate, telecommunications and private equity investing have led to serving on multiple boards of directors. These include Solaris Energy Infrastructure, WaFd, Altria Group, Aris Water Solutions, Luther Burbank Corporation, BBVA USA Bancshares, Texas Regional, Forbes Bros. Holdings, Public Utility Commission of Texas, and Electric Reliability Council of Texas. Mr. Yzaguirre graduated in 1986 from the University of Texas School of Law with a Juris Doctor degree with honors, and in 1983 from the University of Texas at Austin with a Bachelor of Business Administration degree (Finance).

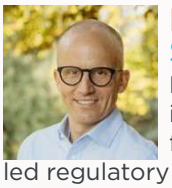

SPEAKERS

JIM SHANDALOV | NEXTERA ENERGY RESOURCES

Jim Shandalov joined NextEra in 2013 and leads the national power origination team for energy sales from utility-scale solar, battery storage, wind, and natural gas-powered energy projects. Jim has over 30 years of industry experience in development, energy procurement, transmission, trading, engineering, and policy. Jim has had leading and team member roles in over 15 GW of projects that are either now operating, under construction, or contracted for completion through 2029. Prior to NextEra, Jim held various positions at Southern Company/ Mirant, PG&E, eSolar, and BP Solar. Jim holds an MBA from Georgia State University and a BS in Electrical Engineering from Georgia Institute of Technology.

NextEra Energy, Inc. (NYSE: NEE) is one of the largest electric power and energy infrastructure companies in North America and is a leading provider of electricity to American homes and businesses. Headquartered in Juno Beach, Florida, NextEra Energy is a Fortune 200 company that owns Florida Power & Light Company, America's largest electric utility, which provides reliable electricity to approximately 12 million people across Florida. NextEra Energy also owns one of the largest energy infrastructure development companies in the U.S., NextEra Energy Resources, LLC. NextEra Energy and its affiliated entities are meeting America's growing energy needs with a diverse mix of energy sources, including natural gas, nuclear, renewable energy and battery storage.

NATE HILL | AMAZON WEB SERVICES

Nate leads energy policy and regulatory initiatives at the state, regional, and federal levels for Amazon Web Services. Prior to AWS, Nate led regulatory initiatives at Puget Sound Energy - a Pacific Northwest utility company. Nate also worked in the U.S. Senate in Washington D.C. as a legislative assistant focused on energy and natural resource policy, and holds a master's degree from the London School of Economics.

JON JOHNSON | REMSIGHT

Jon grew up in a family of agricultural aviators and hay producers and now lives in the Bitterroot Valley with his wife and two children. He draws on his expertise in engineering design, remote sensing, and product development at a Montana-based drone company to drive Remsight's technical innovation.

Jon is passionate about building reliable, field-ready systems that turn complex resource challenges into simple, efficient solutions.

CHRIS KOOPMAN | ABUNDANCE INSTITUTE

Christopher Koopman is the CEO at the Abundance Institute. He hopes that each successive generation lives in a world that gets progressively better each day.

He specializes in regulation, competition, and innovation. His research and commentary has appeared in The Wall Street Journal, The New York Times, The Washington Post, USA Today, Bloomberg, and NPR. He is also a contributor at The Hill, and was named to Forbes' 30 Under 30 in 2016 for law and policy. In 2021, Chris was appointed by Governor Spencer Cox to serve a four year term on Utah's Personal Privacy Oversight Commission.

Prior to joining the Abundance Institute, Chris was the Executive Director at the Center for Growth and Opportunity at Utah State University. He also previously served as a senior research fellow and director of the Technology Policy Program at the Mercatus Center at George Mason University. He is currently a Senior Affiliated Scholar with the Mercatus Center and a member of the IT & Emerging Technology Working Group at the Federalist Society's Regulatory Transparency Project.

JEFF MICHAEL | UM BUREAU OF BUSINESS & ECONOMIC RESEARCH

Jeffrey Michael is the Director of the Bureau of Business and Economic Research and Research Professor at the University of Montana. Dr. Michael has thirty years of experience in regional economic forecasting, economic impact and public policy analysis with a focus on economic development and environmental issues related to infrastructure, housing, and employment growth. He has been principal investigator on over $10 million in university grants and contracts, published over one hundred articles and reports on economic development and policy, and been cited or interviewed over one thousand times in various national and regional media outlets. Prior to joining the University of Montana, Dr. Michael spent 16 years at the University of the Pacific (CA) where he served as Executive Director of the Center for Business and Economic Research, Professor and Director of Public Policy programs, and Director of the Business Forecasting Center, and nine years at Towson University (MD) where he served as Director of the Center of Applied Business and Economic Research, Associate Dean, and Associate Professor.

TANNER AVERY | FRONTIER INSTITUTE

Tanner Avery is Policy Director at the Frontier Institute, where he advances policy solutions that ensure today's pioneers are free to build, create, and innovate. Tanner grew up on the outskirts of Parker, Colorado, helping with family entrepreneurial ventures and competing in rodeos. These experiences shaped his appreciation for hard work and the values of the American West. He later attended Montana State University, where he fell in love with the Montana way of life. After graduating with a degree in Political Science, he began working to secure property rights, defend freedom, and make Montana a place where innovation and opportunity can thrive.

MICHAEL SKELLY | GRID UNITED

Michael Skelly is the co-founder and CEO of Grid United, a transmission development company working to build out the US transmission grid. Skelly is former CEO of Clean Line Energy. Skelly led the growth of Horizon Wind Energy, now part of EDPR. Skelly's other entrepreneurial ventures include founding partner of the Rain Forest Aerial Tram in Costa Rica.
Skelly led the 2012 "Parks By You" campaign, which resulted in the passage of a $150 million bond measure to fund 100 plus miles of trails along Houston's bayous. Skelly's public service includes serving as a Peace Corps Volunteer and a run for the US Congress.
Skelly is the principal protagonist in Superpower, a book about the US grid by Wall Street Journal reporter and Pulitzer Prize finalist Russell Gold.

JIM ATCHISON | SOUTHEASTERN MONTANA DEVELOPMENT CORPORATION

Jim was born, raised, and educated in Eastern Montana. He graduated from Dawson College and Montana State University in Bozeman with degrees in business. After spending 16 years out-of-state successfully operating retail stores and companies, he returned to Montana in late 2000.
Since September 2001, Jim has been the Executive Director of Southeastern Montana Development Corporation (SEMDC), a regional non-profit economic development organization that was established in 1997 to simulate and encourage economic activity in the four (4) Counties of Custer, Powder River, Rosebud, and Treasure.
Jim is a certified Economic Development Finance Professional from the National Development Council and graduated from the state-wide Leadership Montana Program in 2007. He served on the Governor's Economic Development Advisory Council for 12 years and is also a Board Member of the MT Economic Developers Association. Late in 2020, Jim was awarded the "Anthony J. Preite "Champion of Economic Development" Award from the Montana Economic Developers Association. Currently, he is part of the national peer exchange program called "Building Resilient Economies in Coal Communities (BRECC) through NACo. In the past few years, Jim has fielded dozens and dozens of media interviews on Energy and the Colstrip Story including articles in the LA and Seattle Times and as a two-time guest on the Fox Business Network show "The Bottom Line."

JENN GALLMEIER | GREAT FALLS DEVELOPMENT ALLIANCE

Jenn Gallmeier serves as Vice President of Investment at the Great Falls Development Alliance. She manages investor relations and leads the organization's grant writing and capital campaign efforts. Jenn has helped secure millions in new loan capital for GFDA's certified Community Development Financial Institution, strengthening access to financing for housing, energy, business expansion, and community development projects. She works closely with local, state, and national partners to align resources that support job creation and economic growth across North Central Montana.

BILL KENNEDY | CITY OF BILLINGS

In the early 1980's, Bill taught school in Colstrip, during the building of plants 3 & 4. Coal mining spread through the region and Eastern Montana was thriving economically. This led to Bill's public service dedication. He worked in public service for the past 33 years and currently serves on the Billings City Council, representing Ward 3. He retired from the Yellowstone County Commission in 2016, after serving 24 years.
From 2016 until 2022, Bill served as the President/CEO of MSUB Foundation and currently he is the Executive Director of Family Tree Nurturing Center, for the prevention of child abuse and neglect.

SECRETARY CHRIS WRIGHT | U.S. DEPARTMENT OF ENERGY

Chris Wright is the 17th Secretary for the U.S. Department of Energy. A self-described energy nerd turned entrepreneur, Chris is a dedicated humanitarian with a passion for bringing the benefits of energy to every community in the world. This passion has inspired a career in energy, working not only in oil and gas but nuclear, solar, and geothermal. As Secretary of Energy, Chris is focused on unleashing American energy dominance, accelerating innovation and advancing all energy sources that are affordable, reliableand secure for the American people.
Chris completed an undergraduate degree in Mechanical Engineering at MIT and graduate work in Electrical Engineering at UC Berkeley and MIT. He founded Pinnacle Technologies and served as CEO from 1992 to 2006. Pinnacle created the hydraulic fracture mapping industry, and its innovations helped launch commercial shale gas production in the late 1990s. Chris was Chairman of Stroud Energy, an early shale gas producer, before selling to Range Resources in 2006. Most recently, Chris served as Chairman and CEO of Liberty Energy, where his team helped to expand the shale revolution to include oil as well as natural gas. Chris has also participated in an effort to apply shale technology to unlock next-generation geothermal and helped to launch small modular reactors.
Chris was nominated by President Trump to serve as the 17th Secretary of Energy on November 16, 2024 and confirmed by the U.S. Senate on February 3rd, 2025. He grew up and in Colorado and currently lives in Washington, D.C. with his wife, Liz. He is a passionate father, grandfather, skier, cyclist, climber, and outdoor enthusiast.

MONTANA DEPARTMENT OF COMMERCE

MONTANA IS OPEN FOR BUSINESS

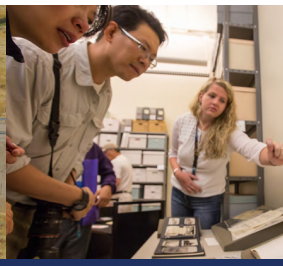

COMMERCE

The Montana Department of Commerce works with local and statewide partners to support economic growth across Montana. By offering grants, loans and technical assistance, Commerce promotes economic opportunities and administers quality, affordable housing programs. Commerce also aids business development, tourism promotion and public infrastructure planning and improvements. Commerce is dedicated to assisting Montana's businesses and communities, helping them thrive and build a prosperous future for the entire state.

A TRIBUTE TO MONTANA'S ENERGY LEADER

DUANE ANKNEY

We are grateful for the years former legislator Duane Ankney spent in service to his community, state, and country and will miss his presence.

After serving in the United States Navy from 1964 – 1969, Duane settled in Colstrip, MT. His professional experience included working as a plant foreman at Spring Creek Coal, mail foreman at Central Feeds and at the Western Energy Company.

Saving Colstrip, and southeastern Montana, by creating high paying jobs for the next generation was his passion. Which is why he chose to dedicate his life to public service, serving in the Montana House of Representatives from 2007 – 2015 and as a member of the Montana State Senate from 2015 – 2023.

Most will remember Duane as a champion for coal, tirelessly advocating for industry and passing legislation establishing wind and solar development ground leases for state trust lands and establishing a coal trust fund for counties.

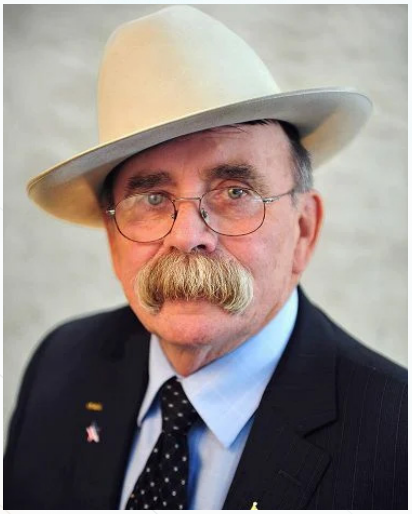

Another notable effort was the 2013 repeal of an obsolete law criminalizing same-sex intercourse.

His bipartisan efforts included forming of the 'Reasonable Republicans' caucus in 2013, reaching across the aisle to pass the state budget. In 2015, Ankney worked on the expansion of Montana's Medicaid program, extending health care to approximately 45,000 Montanans. That same year, he teamed up with Governor Bullock on the 'Montana Disclose Act', reforming campaign finance, increasing transparency, and requiring campaign expenditure disclosures from political groups.

Duane was also a friend to the business community with the Montana Chamber of Commerce recognizing Ankney as an Honorable Mention or Champion of Business in each of his legislative sessions.

"DON'T LET THE BASTARDS GET YOU DOWN."

Duane Ankney (1946 – 2025)

"I've had some swollen eyes since I got the news earlier. Gone is a huge influence / mentor and a man I have always looked up too. Spent my whole life around him in some capacity. Duane was a family friend and a person who was always willing to help and guide. He took public service seriously and strived to help out his community and others around him. He helped me get my boilermaker career off the ground and later on lent me guidance in the political arena and was often my greatest supporter. I appreciated everything you did for the me and you will be missed. You were one hell of a man."

- Jason Small, Montana AFL-CIO

"Duane was an unapologetic supporter of the coal industry. That support was rooted in the good paying, safe jobs it provided, particularly in rural America. As the undisputed champion of coal, he was able to do it in a way that even the biggest detractors still liked him and and appreciated his good natured, positive message. Duane was a gentleman that fought furiously on policy and never on personality. Duane Ankney was a giant in our time."

- Todd O'Hair, Montana Chamber of Commerce

MONTANA'S 69TH LEGISLATURE

MONTANA CHAMBER OF COMMERCE

CHAMBER LEGISLATIVE PRIORITIES

The Montana Chamber secured important wins for the business community in the 2025 Legislature, passing major bills and defeating harmful proposals that would have increased regulation, undone important reforms and stymied growth. The Chamber is happy to report a 75% success rate in passing (and opposing) bills in the Montana Legislature.

At the top of the Chamber's list was renewing Montana's expanded Medicaid program, which serves low-income workers and keeps the lights on in rural hospitals and clinics across the state.

The Chamber also led a coalition across all business sectors to overhaul the Montana Environmental Policy Act and related laws that have long held back growth and job creation.

The Chamber played strong defense as well, defeating proposals to turn back the clock on hard-won workers' compensation reforms that the Chamber helped win in years past. SB 295, for example, would have led to an almost-certain 8% increase in employer premiums. Working with the Montana Self Insurers Association, Montana State Fund and other partners, the Chamber helped defeat SB 295 and helped Montana employers keep work comp premiums low.

On these and countless other bills, the Chamber was the sword and shield of the Montana business community. Your investment in strong advocacy helped ensure that Montana stays open for business.

Preserving Medicaid Access
A healthy workforce & healthcare access for all employees

Tax Increment Financing
Modernizing & preserving TIFs as a tool for development

Housing
Expediting permitting & ensuring certainty and transparency in decision making

Tax Reform
Lowering property tax burdens while avoiding unnecessary shift to MT businesses

Childcare
Increasing accessibility & affordability so MT parents can fully participate in the workforce

Tort Reform
Lowering insurance costs & protecting MT businesses from unnecessary litigation

Energy
Guaranteeing Montana has a consistent, reliable, & affordable energy supply

Enabling Entrepreneurship
Ensuring Montana stays a top location for entrepreneurs to thrive

ENVISION 2026
A PLAN FOR MONTANA'S FUTURE

STRATEGIC PLAN

Recognizing the challenges Montana faces and looking to capitalize upon its strengths, in 2016, the Montana Chamber launched an ambitious, long-range strategic plan called **Envision 2026**.

ENVISION 2026 HAS FOUR OBJECTIVES:

BUSINESS CLIMATE

- Lowering and simplifying taxes
- Improving the legal climate
- Untangling rules and regulations
- Reforming workers' compensation

ENTREPRENEURSHIP

- Inspiring future business leaders
- Recruiting talent
- Eliminating barriers to entry and success

WORKFORCE READINESS

- Creating an appropriately educated and skilled workforce to meet the needs of a growing economy
- Engaging with students and schools

INFRASTRUCTURE

- Upgrading Montana's roads, bridges, water and waste treatment systems to promote economic growth across the entire state
- Expanding access to broadband and high speed Internet to meet the needs of the evolving economy
- Ensuring infrastructure meets the needs of today's economy and promotes economic diversity tomorrow

Focusing on these four pillars of a competitive and thriving economy, the Montana Chamber of Commerce and Montana Chamber Foundation are working to create opportunities for growth and prosperity.

The Montana Chamber of Commerce is a member-driven organization, which means it is ultimately a community-driven organization committed to strengthening and improving the quality of life in this great place. Thank you to all who joined the Montana Chamber in advancing the important mission of Envision 2026!

WE NEED YOUR INPUT!

As the sun sets on Envision 2026, we're identifying business priorities for the next decade and we need your feedback.

GOVERNOR GREG GIANFORTE

MONTANA CHAMBER OF COMMERCE

MONTANA CHAMBER FOUNDATION

EMPOWERED™

The Montana Chamber Foundation (MCF) is committed to supporting educators in their vital role of preparing Montana's future workforce. Through the Envision pillars of workforce readiness and entrepreneurship, MCF is transforming education by partnering with Empowered to bring real-world skills into the classroom.

Empowered's core concepts—Principles, Markets, and Mindset—are now being implemented in more than 100 communities across Montana by over 500 educators. These resources make learning authentic and engaging, and they are free and accessible to all public, private, community, and homeschool settings.

MCF's dedicated workforce strategists, James Easton and Tiana Yates, along with a team of Ambassadors statewide, provide ongoing support to teachers, students, and schools. Every member of this team is a classroom teacher, bringing firsthand experience and a deep understanding of the challenges educators face.

THEPROSPECTS

INVESTING IN MONTANA'S FUTURE BUSINESS LEADERS

The Prospects is a statewide virtual entrepreneurship competition that awards scholarships and cash prizes to elementary through high school students with innovative ideas and existing small businesses.

Now in its sixth year, the competition highlights Montana's next generation of entrepreneurs—celebrating their creativity, problem-solving skills, and entrepreneurial mindset while connecting them with business leaders across the state.

The event culminates with an in-person pitch competition at the Jake Jabs College of Business in Bozeman, where students compete for the title of Grand Champion. Each year, the program continues to grow in impact and reach.

Interested in supporting The Prospects? Opportunities are available to serve as a judge or sponsor. Please contact Tiana Yates at tiana@montanachamber.com.

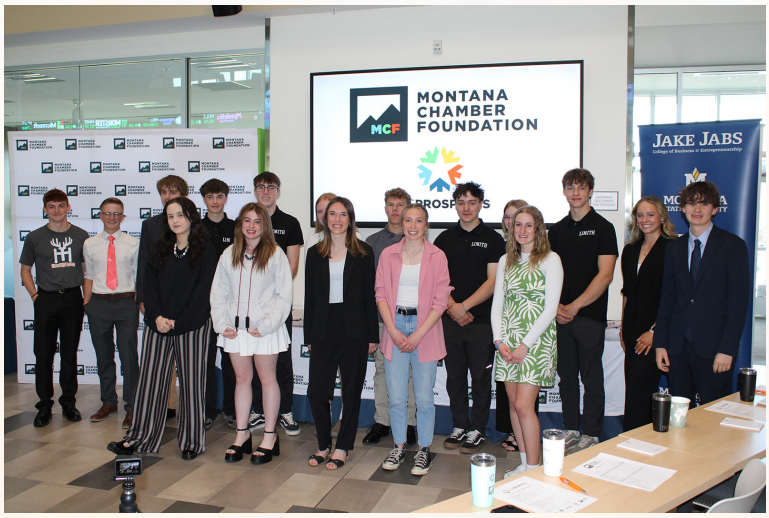

CULTIVATING CAREERS

Cultivating Careers brought together over 500 students—from middle school to college—and more than 40 businesses for a hands-on career exploration experience in Glendive on the campus of Dawson Community College on September 24th.

Sponsored by the **Montana Chamber Foundation**, this event is one of six planned for the school year, with past stops in communities like Livingston and Cut Bank.

Students connected with local employers, explored career pathways, and discovered opportunities in their region. Through programs like Empowered and The Prospects, the Foundation continues to invest in Montana's future workforce—especially in rural and tribal communities—by fostering innovation, readiness, and economic growth.

GOVERNOR GREG GIANFORTE

MONTANA CHAMBER OF COMMERCE

MONTANA CHAMBER FOUNDATION

2025 TEACHER PROFESSIONAL DEVELOPMENT RECAP

At the beginning of August, the Montana Chamber Foundation (MCF), in partnership with Empowered, hosted 38 educators in Helena for a one-of-a-kind professional development experience. MCF is proud to sponsor this event—covering nearly all costs—so teachers can focus on what matters most: gaining tools, ideas, and energy to bring back to their classrooms.

What made this PD stand out was the hands-on, immersive approach. Instead of just hearing about the curriculum, teachers lived it. They earned Empowered currency, joined in a lively auction, and took part in activities designed to spark creativity, problem-solving, and collaboration. Sessions were led by Empowered staff Jason Fillie and Jim Masker, with special guest visits from Susie Hedalen (Superintendent of Public Instruction of Montana), Gabe Eklund-Rowley (Montana Work-Based Learning Collaborative), and Crystal Armstrong (Department of Labor and Industry). Their insight and encouragement gave teachers a stronger connection to the statewide movement preparing students for Montana's future.

This was the third professional development event MCF has hosted with Empowered in Montana, and each year the momentum grows. Supporting educators is core to MCF's mission—by investing in teachers, we are investing in students, communities, and the state's long-term workforce. We're excited to keep expanding these opportunities so every Montana classroom can benefit from fresh, innovative learning experiences. To keep up to date with our PD and Montana teacher support, please visit our webpage.

GOVERNOR
GREG GIANFORTE

Fueling curiosity. Advancing potential.

We believe in the next generation of STEM leaders and are proud to help invest in their success.
